👤 PROFILE

Java Full Stack Developer with hands-on experience building scalable web applications using Java, Spring Boot, React.js, and MySQL. Passionate about developing secure REST APIs, responsive user interfaces, and clean, maintainable software. Seeking an opportunity to contribute to real-world software development while continuously enhancing technical expertise.

CERTIFICATIONS

- Object-Oriented Design with UML & Java – NPTEL
- Python with Flask – Inlustrro
- Full Stack MERN – Inlustrro

PROJECT EXPERIENCE

College ERP Management System

React.js | Spring Boot | MySQL | JWT | Automation Modules

Developing a full-stack ERP with automated modules such as attendance, admissions, exam registration, timetable generation, and secure role-based authentication. Focused on scalability and modern UI/UX.

Rice Flour Shop Website (E-Commerce Project)

React.js | Spring Boot | Razorpay | Telegram Bot | Railway Cloud

Built an online shop with product listing, order placement, and Razorpay payment integration. Implemented Telegram notifications for real-time order alerts and deployed the system on Railway Cloud.

Mini Projects Portfolio (React, Spring Boot & ML)

- **15+ React projects:** dashboards, e-commerce UI, feature-flag system, utilities, and interactive components.
- **10+ Spring Boot CRUD systems:** student management, employee management, inventory handling, auth modules.
- **Python/ML projects:** recommendation engine, image-processing apps, and small classification models.
